

**FORPRENE® 6SD001A60 NEUTRO - TPV****Description**

FORPRENE 6SD001A60 NEUTRO is a thermoplastic vulcanizate (TPV) for injection molding applications. It is formulated to yield high melt flow, low odor and neutral color, and is especially suitable for thin wall, long flow length part constructions. It is suitable for overmolding or 2K/multicomponent injection molding over polypropylene-based substrates.
